My Legacy- Broken!Winterwatcher

galaxyfoot27

“If my legacy is to throw myself in the path of a spear for your life, so be it.” Winter murmured, pacing. “If my life is to be yours—*ours*, even—so be it! If my end will come defending you, keeping you safe and alive, let it be. I’m living for *you*, Moon. You can’t leave me like this, can you? *Can you*?”
His methodic march stilled. She saw right into his eyes, into his soul. Dread bean to rear its ugly head in the pits of her belly.
Deep breaths. One…Two…Three…Four…
“Moon, my love, I’m waiting.” One step closer and the Dread began to gnaw as her insides tightened around it.
Five…Six…Seven…
“Just say that you love me, and I’m yours. I’d give my life for you, Moon. You’re my world.”
Eight…Nine…
Oh Gods, it was clawing at her stomach, Dread and Fear overtaking her racing heartbeat in a vociferous clamour of sound and feeling.
“All our memories, Moon! I gave up my ranking, my family, my ancestry—my entire life in that wretched kingdom for you! You’re my everything—you must be. Our talks, our walks. Classes together. We pranked Qibli—we went on walks late at night—I showed you the Great Ice Dragon constellation, remember? Remember the stars, Moon?”
Ten.
“Don’t they mean *anything* to you, Moon?” ragged, throaty, desperate cries. Her lust for another-- tans and golds and soft, sanded edges—overran her fear. He frightened her; that he knew—but he loved her, wasn’t that enough? The frantic authenticity of her thoughts nearly gave her whiplash as she struggled to slow them down. Everything was raw and exposed and in front of her. The only thing she couldn’t read from the depths of her own head was love for the crumbling mind in front of her. Shaking her. Clawing her, throwing her.
“Don’t *I* mean anything to you, Moonwatcher? Don’t I deserve your love, after all I gave up?” Claws, teeth. He had kissed her, and all she could taste was blood. *Her* blood. She couldn’t summon forgiveness for the shards of a soul littered around her; she was stepping in them now, blood pooling, rising, drowning her Dread and Fear with it. Gone.
She was Gone.

@Bearclaws, Ghostlynx, Midwinterblue & Dragonblizzard-

@Hydra very OOC but something i could see happening situationally...for instance, if Winter saved Moon from Darkstalker's spell and then she left him for Qibli in an apocalyptic Darkstalker-takeover?
Not saying i have an AU or anything...but I definitely have an AU :p

Beautiful Good point why Moon should have picked Winter. Winter left everything for her. He really only cares for two dragons. His brother and Moon. His brother accepted his apology, but Moon was selfish and did not and would not, and because Winter thought if I sacrifice everything for her, Moon will forgive me and love me, but no she picked Qibli who almost killed them all, despite he did nothing of the sort, he barely saved anyone. It was pretty much Kinkajou who saved everyone, yet Moon pretends it was Qibli, yet Moon should at least tell Winter what happened to Darkstalker and also the minute Peacemaker goes to the bathroom the spell would actually break, because in real life acids would melt it and digest it and it would go in the toilet, so yeah Qibli never saved anyone except himself. He is selfish, and how she asked him was horribly written. Horribly and I mean it. Come on I could have done better then that, Tui also needs grammarly, because I have seen quite a few mistakes, because of her computer.
